

Dear Families,

As we approach the end of July, we turn to next school year. While this is always a time of getting ready and looking ahead, more than ever, we need to partner together to ensure a successful school year.

In this e-mail, you will find Lumen Christi's Return to Learn Plans for 2020-2021. These plans are a summary of the most important planning points: there is much more being worked on and developed, and we will continue to release these details in the next few weeks. Our plans do cover all phases of Governor Whitmer's re-entry plan, so you can look ahead to what our plans are if changes occur in the next weeks or months.

Please first [watch this video](#) to introduce our plans. Then, read our [3-page Summary of Plans](#) here. We know there may be many questions; we ask you to [submit your questions using this link](#) so we can compile an FAQ to send out to stakeholders in the next weeks.

We are preparing for you and praying for you -- please do the same for us!

In the Light of Christ,

Stephanie Kristovic
